

CRAVAT- LOCK®

Strongest wire mesh in the world.

Cravat-Lock® is a guarantee of satisfaction. Non-sliding knot makes the mesh very strong and stable but also way more safe for the animals than other nets.

Quality first

- Steel wire, galvanized (A class), ($Zn=245g/m^2$) in accordance with the standard: PN-EN 10223-5
- Vertical wire as a whole
- The strongest non-shifting knot
- High strength of horizontal wire 1100-1300 MPa
- Mesh quality in accordance with European standard PN-EN 10244-2
